
General piping

IMPAS is an experienced company in manufacturing a complete range of piping systems for the shipbuilding, process and equipment building industry.

For the shipbuilding industry:

Engine room installations:

- ballast/bilge water
- fuel oil (MDO/HFO)
- lubricating oil
- cooling water
- starting air
- exhaust gases
- heating

Cargo handling systems:

- oil
- cement
- chemicals
- gas
- LNG (cryogenic applications)

Dredging:

- degassing
- jet water
- dredging

Ship's piping systems:

- filling, soulding & deaeration
- sewage, grey and black water
- scuppers, drains
- gas detection
- coils

For the process industry:

- waste water
- cooling water
- heating
- steam
- process

For equipment building:

- gas detection
- inert gas
- water treatment
- fresh water generator
